Number of hours per semester		60

Course objectives, teaching and learning methods and learning outcomes

The aim of the course is to introduce students to key business concepts, grammar and the language of the business world. It covers a wide range of business situations. There is frequent opportunity for discussion and vocabulary development throughout the course.
The students must have a working knowledge of English Language, which should be polished during the year. By the end students must be able to command economic terminology.
The cassettes and audio CDs contain authentic interviews with experts talking about their fields of business or economics.

Requirements, correspondence and correlativity

The course is a comprehensive upper-intermediate course for business students. It provides an authentic framework for developing an understanding of key areas of contemporary business, while allowing students to improve their language skills through a variety of relevant and challenging activities. The course meets the curriculum and syllabus requirements of business studies courses taught at various universities worldwide and is an ideal preparation for business examinations.

Course content (list of topics)
