GUIDE FOR FUTURE STUDENTS

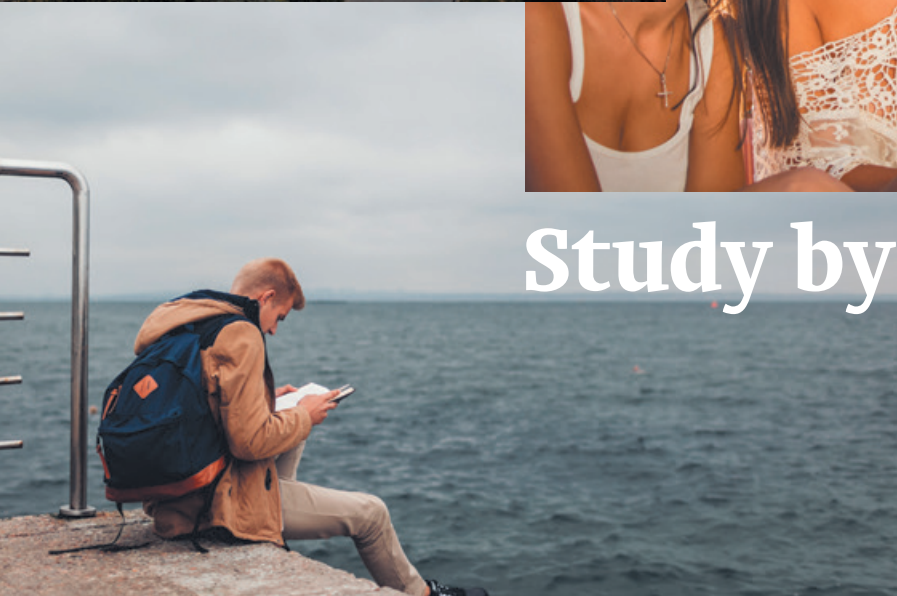

Pula, a modern port of knowledge

Let's explore
and protect marine
life together

The cultural
centre of Istria
since the Roman times

Study by the sea

Pula

Pula, the largest city in Istria, welcomes you! It's the ideal place for young people like you, who wish to spend the best years of their lives, their university days, in a place that offers the most sought-after study programmes, in addition to a variety of entertainment, sports, cultural and other events and activities. Join us in a relaxed Mediterranean atmosphere with gorgeous beaches and natural treasures that abound in the southern Istrian peninsula.

Should you fall in love with Pula while studying here, the University can assist you in finding great career opportunities quickly in one of Croatia's most developed regions or working while studying. The Juraj Dobrila University of Pula boasts a modern campus, restaurants and cafeterias, laboratories, libraries, galleries and many more facilities that make studying much easier, just waiting for you to discover them. It also offers international mobility programmes, two online degree programmes, the opportunity to turn your business ideas into reality and embark on the journey of self-employment, small group teaching and an individual approach with the support of mentors who accompany students through all their years of study. Here, we follow our students even after graduation, providing support on their career path through our Career Development Centre. What are you waiting for? Let's find out which academic path is the best for you!

The students of the Faculty of Natural Sciences explore marine ecosystems and acquire knowledge that is crucial for the conservation of this precious resource.

The sea

is calling

The study programme in Marine Sciences is intended for students interested in marine biology, oceanography, as well as sustainable management and conservation of marine ecosystems. Practical classes aimed at acquiring knowledge and honing skills required to confidently perform professional tasks in the field and pursue further education and training make up a significant part of the programme. Today, the magnitude of human impact on the world oceans and seas is massive, despite their essential role in the evolution and preservation of life on our blue planet. Gain in-depth knowledge about marine ecosystems – let the exploration and protection of marine ecosystems become your calling.

A modern port of knowledge

#EvolveUnipu

The Campus of the Juraj Dobrila University of Pula (UNIPU) is a hub of innovation and scientific progress. So much more than just a place of learning, it's a dynamic hub of modern ideas and technologies.

With its state-of-the-art infrastructure, UNIPU boasts advanced research laboratories and technology-equipped classrooms where students can take advantage of the latest trends in education and research. Here, teaching methods go beyond the boundaries of the traditional, integrating hands-on workshops, online platforms and an interactive approach to learning. It's not just a place where students acquire theoretical knowledge, it provides opportunities for students to develop the skills needed to succeed in today's dynamic world. Every corner of the Campus reflects #evolveunipu - from the eco-friendly buildings to the collaborative spaces encouraging creativity and innovation. UNIPU is a place where we jointly create the future of education.

Join us on this exciting adventure.
Be a part of #evolveunipu!

Campus 1

Campus 2

Be among the first to explore the new campus

#EvolveUnipu

The new campus will include a range of facilities open to the public, such as libraries, laboratories, exhibition spaces, multifunctional spaces, sports facilities and performance venues.

A new dimension of education awaits you here. The campus is equipped with the latest technology and offers far more than a traditional learning experience. You'll have access to state-of-the-art libraries, modern laboratories for innovative research, and exhibition spaces that encourage creativity.

Multifunctional spaces designed for flexible learning allow students to experiment with

different learning and collaboration styles. Sports facilities provide numerous opportunities for maintaining a healthy and active lifestyle. Performance and event venues are the great places for cultural and artistic activities supporting the development of student creativity.

The pulse of innovation and creativity beats in the heart of the University of Pula (UNIPU). Our vision for the next decade reflects a dynamic blend of tradition and innovation. We plan to expand our campuses with a focus on technology excellence, cognitive science, sustainability, and social responsibility – all-around STEAM!

TECHNOLOGICAL REVOLUTION

Our new laboratories and research centres will become technological innovation incubators. By integrating artificial intelligence (AI), cognitive science, robotics and sustainable technologies, UNIPU will position itself as a major technological research hub.

ACADEMIC EXCELLENCE

We expect an increase in the number of undergraduate and graduate, as well as doctoral students, who will further enrich our academic community. We aim to increase international visibility and knowledge to be shared through partnerships with leading global institutions.

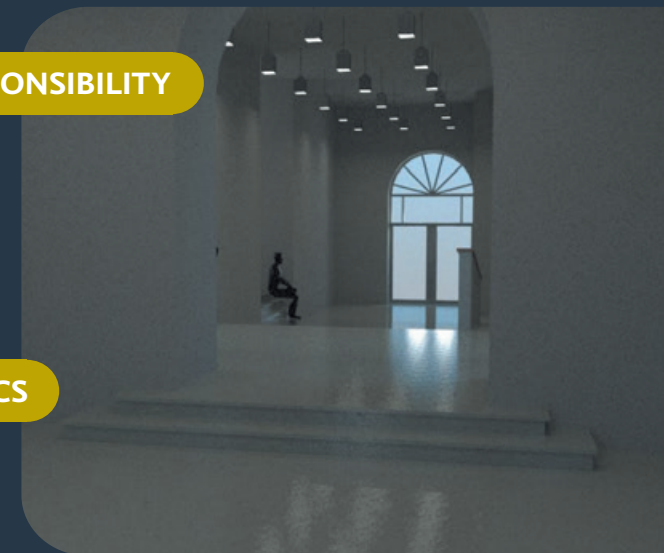

SUSTAINABILITY AND SOCIAL RESPONSIBILITY

UNIPU will implement initiatives focused on the campus and community sustainability. Our programmes and projects are centred on addressing important global challenges such as climate change, social equity, and economic sustainability.

CULTURAL AND ARTISTIC DYNAMICS

We plan to build new art and culture venues that will allow the students and the community to express themselves, to innovate and to create.

With these key initiatives, #evolveunipu is not just a slogan, but a roadmap to the future we are building together. Follow us on this exciting journey towards a new horizon of knowledge and innovation.

Explore your visions with VISIO!

The objective of the VISIO Institute of Science and Technology is to promote research excellence.

Its main function is to provide services to the UNIPU researchers seeking support for their independent and collaborative research activities.

What can you do here?

- Create virtual CAD product models and technical documentation
- Develop static and dynamic loading simulations for product development and form optimisation
- Perform rapid prototyping, 3D printing and 3D scanning
- Take educational courses for pupils, students, entrepreneurs and hobbyists
- Partake in project work and consulting
- Conduct research

From inspiration to innovation evolve Uni Tech d.o.o

The Student Business Incubator SPIN helps the current and former UNIPU students achieve the following goals:

- Develop and present business ideas to potential investors and/or partners
- Perform market research
- Develop business plans and business strategies
- Launch business ventures
- Find business premises (for four commercial entities/businesses) for 3-year lease periods
- Establish and maintain collaboration with representatives of entrepreneurs, bankers, business angels and other stakeholders interested in developing and commercialising student business ideas

GRADUATE UNIVERSITY STUDY PROGRAMME IN INFORMATICS – INFORMATICS EDUCATION

Your best resource when studying for an exam

As soon as you enrol at the Juraj Dobrila University of Pula, you automatically receive free membership in the University Library and its branches, where you will find everything you need to write seminar papers and prepare for your mid-term and end-term exams.

Use all the benefits of using reading rooms late, inter-library loan services, expert assistance, user workshops, and training for teachers and associates.

The given library also publishes various publications like textbooks, books, monographs, translations, and proceedings of scientific, artistic and professional conferences, etc.

Centre for Cultural and Historical Research of Socialism

The Centre for Cultural and Historical Research of Socialism brings together members of academic staff from different university departments and connects scholars with a shared interest in scientific research of the socialist and post-socialist period, as well as the communist ideology and theory.

At the centre, scholars carry out scientific research within the field of humanities, social sciences and interdisciplinary studies, particularly the following disciplines: history, ethnology, anthropology, philology, and art science.

Student life in Pula

PULA STUDENT CENTRE

Want to know when a poetry and music recital or a textbook promotion will take place? Need more information on how to apply for a room in student residence or how to get on the Student Council? No worries, the Student Centre is the place where you can get all news and announcements on time.

STUDENT COUNCIL

Join the Student Council and help the students and the University.

STUDENT SERVICE

Learn about various temporary and permanent employment opportunities. Earn some extra pocket money and prepare for the increasingly demanding labour market, get acquainted with the work environment and colleagues, and start building your career.

STUDENT RESTAURANTS

You can find a well-furnished student restaurant and a pizzeria not far from the student residence hall. Both have spacious indoor seating areas, and during summer you will surely enjoy soaking up the the sunshine on the open terraces.

RESIDENCE HALL WHERE YOU HAVE IT ALL!

The student residence hall consists of three well-equipped pavilions. Full-time students can apply for accommodation in the Pula Residence Hall by submitting an application through the accommodation application process. The call for applications for student accommodation is announced every year in July on the website of the Pula Student Centre.

A step further – student exchange

→ Madeira, Portugal

“We returned from Madeira with positive impressions, new experiences and motivation to take on new challenges.”

“Go, travel, try everything you’ve ever wanted to try, get to know yourself, and come back as a better person!”

Erasmus+ is the EU’s flagship programme to support education, training, youth and sport in Europe, and has been enriching the lives and expanding the horizons of millions of citizens of all generations for more than three decades. It will help you develop your skills and boost your job prospects.

This programme offers a wide choice of countries with student exchange opportunities. Plan your exchange studies in the EU member states, Macedonia, Iceland, Norway, Liechtenstein and Turkey.

→ Naples, Italy

“I believe that all students should experience Erasmus to discover other people’s way of life, to understand multiculturalism and the differences among people. It’s not just about studying; it’s about getting outside your comfort zone and opening your mind in many different ways.”

“Many people change, or the experience changes them – for the better!”

→ Halifax, Canada

“Thanks to my mentor, who threw me into the thick of it straight away so that I wouldn’t feel alienated, I realised that this journey has made me more mature, more responsible, and blessed to have met so many wonderful people.”

Scholarships and financial support

UNIPU offers a number of scholarships, e.g. scholarships for students with disabilities, students of lower socio-economic status who are eligible for one-off financial support, and merit-based scholarships for students enrolled in university or vocational study programmes.

If you want to embark on an academic journey abroad, we will also help you find scholarships fostering international cooperation.

→ Paris, France

“I had been thinking about going on Erasmus since my first year at the university, but it had to wait until the last year of my graduate programme. I bravely decided to go to Paris. Alone.”

“Remember, we always regret the things we didn’t do!”

Study the life in Pula

SPORT

At the Juraj Dobrila University of Pula, sport comes in different forms: recreational, competitive and as part of health and physical education courses. Recreational activities are available to all students free of charge.

Our students participate in numerous domestic and international competitions and tournaments, such as those in Milan, Paris, Barcelona, Valencia, Rome, New York, Belgrade, Dublin, where they achieved top results.

NATURE

There are more than a dozen beaches to choose from in or near Pula. When it's time to get some rest, just pick your favourite beach and enjoy.

CULTURE

Pula offers a variety of cultural facilities like theatre shows and classical music concerts, as well as museums and galleries: Makina, HUIU, Novo Gallery, Poola, Giardini 2 Club and Bookstore, Pula Rock Gallery and C8. If you happen to be in the town during the Pula Film Festival, make sure not to miss the screenings of the best movies under the stars at the Arena.

Pula offers many restaurants and bars with a variety of amazing menus and drinks, great entertainment options, old military forts for history buffs to explore, many quiet places to unwind and relax, and an aquarium teeming with vibrant marine life.

NIGHTLIFE

Bars: Lattiera, Cvajner, Sirena, Scandal Express, Cabahia, Bass, La Resistance, Circolo, Old City, Shipyard, Rock Caffè, Mimoza, Public Bar (student parties on Thursdays), Dvojka, Wine bar Sorsi, Ožujsko Pub Zaobilaznica, E&D, Bounty, Uliks

Events:
Klub Kotač (Rojc, concerts, parties)
Monte Paradiso (Rojc, punk)

STUDENT ASSOCIATIONS

STUDENT PROJECTS

The Pula Student Association (SUP) organises thematic forums and themed evenings, performances, concerts, exhibitions, lectures, seminars, workshops, and similar events.

What our students say about us

The main advantage of studying at the Academy of Music in Pula is that it's a relatively small academy where we are more than just a number. The professors are understanding, willing to help and invest maximum efforts to give every student personalised attention.

Ivan Nikola Jurić – MAPU

I decided to stay in Pula during my studies because the city provides everything I need for a comfortable student life. The numerous business opportunities in tourism and the beautiful sea were the biggest draw for me.

Lara Ljubenović – FET

In the Teacher Education Programme, we learned about numerous projects, cooperation with various associations and other university departments, and established excellent collaboration with the schools in the Pula area, which helped me embark on my teaching career with confidence.

Sara Nemanić – FOOZ

I'm not lying when I say that my journey led me "through the thorns to the stars." From a first-year undergraduate who confidently asserted that she could not imagine herself taking on certain roles (like teaching) to now having enrolled in my second graduate study programme at UNIPU, Informatics Education of all things. Don't give up, because all that hard work pays off in the future :D

Alma Smajić – FIPU

What I remember most from my student days in Pula are the field classes that offered, in addition to learning, a plenty of opportunities to relax and socialise.

Matej Čief – FPZ

The Faculty of Engineering in Pula encourages teamwork, often involving group projects that mimic real-life engineering challenges. The professors are knowledgeable and approachable, always ready to help with complex concepts or provide career advice.

Igor Marković – TFPU

Studying Design and Audiovisual Communication in Pula is a great experience. Thanks to practical and field classes, I feel that my knowledge improves every day.

Ivana Čorić – DAK

Studying at UNIP is the best period of my life and the best decision I have ever made. The great professors and colleagues make student life easier, not to speak of beautiful Istria and learning on the beach.

Miljana Đukić – FFPU

Studying at the School of Medicine, University of Pula has been an exceptional experience that has shaped both my professional and personal development. As an undergraduate, and now a graduate student in the Nursing study programme, I have faced a wide range of challenges that demanded my full dedication and perseverance. Though at times it was difficult to juggle all my commitments, I always managed to find some free time to enjoy my personal interests. This time of my life has been filled not only by academic achievements, but also by precious friendships and new experiences. If I had to do it all again, there is no doubt I would make the same choice again.

Katarina Vuk – MFPU

Come to the University Fair of the Juraj Dobrila University of Pula

"In addition to learning opportunities, UNIPU offers various facilities that make studying so much easier – student accommodation, work opportunities in your chosen field or other professions, a lot of student activities and fun... When you factor in the sea, hot summers, and all the things we think of when we talk about "university experience", you get UNIPU – a university that does not stop at teaching, but also prepares its students for the real world."

Ivan Nikola Jurić – MAPU

We believe that Pula will steal your heart and that your academic journey will be an unforgettable experience. If you want to discover all the advantages of student life in Pula, join us at our Open Days.

Miljana Đukić – FFPU

UNIPU(N) is full of surprises, and I believe everyone can find the perfect study programme for their needs here at our university.

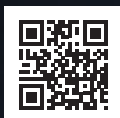

Alma Smajić – FIPU

Everyone should come and see for themselves how positive the learning atmosphere can be in such a unique, beautiful environment where everyone can find a place for themselves and truly shine.

Ana Kuhar – FFPU
